

12 life science march pdf

Science Kâ€™12 Learning Standards. The Washington State 2013 K-12 Science Learning Standards (WSSLS) are the Next Generation Science Standards. These standards describe what students should know and be able to do at each grade level.

Science Kâ€™12 Learning Standards

Life is a characteristic that distinguishes physical entities that have biological processes, such as signaling and self-sustaining processes, from those that do not, either because such functions have ceased (they have died), or because they never had such functions and are classified as inanimate. Various forms of life exist, such as plants, animals, fungi, protists, archaea, and bacteria.

Life - Wikipedia

Evolution is change in the heritable characteristics of biological populations over successive generations. These characteristics are the expressions of genes that are passed on from parent to offspring during reproduction. Different characteristics tend to exist within any given population as a result of mutation, genetic recombination and other sources of genetic variation.
