Summer learning loss is the loss of academic skills and knowledge over the course of summer holidays. The loss in learning varies across grade level, subject matter, and family income. A common finding across numerous studies is that on average, students score lower on standardized tests at the end of the summer than they do at the beginning of summer (on the same test).

Some researchers are urging schools to take a fresh look at homework and its potential for improving student

performance. The key, they say, is to take into account grade-specific and developmental factors when determining the amount and kind of homework.
