Safer Choice is a voluntary program that works to advance the mission of EPA to protect human health and the environment by helping product manufacturers choose the safest chemical ingredients possible.

### **Safer Choice | US EPA**

Bleach is the generic name for any chemical product which is used industrially and domestically to whiten clothes, lighten hair color and remove stains. It often refers, specifically, to a dilute solution of sodium hypochlorite, also called "liquid bleach".. Many bleaches have broad spectrum bactericidal properties, making them useful for disinfecting and sterilizing and are used in swimming ...

### **Bleach - Wikipedia**

Chemicals can be found in many of the products we use in our everyday lives. Some chemicals pose risks to humans and the environment. Under the Toxic Substances Control Act (TSCA) and the Pollution Prevention Act, EPA evaluates potential risks from new and existing chemicals and finds ways to prevent or reduce pollution before it gets into the environment.

The new Saline Blue chlorinators have been designed to operate at very low salt concentrations providing increased bather comfort, lower operating costs, the elimination of corrosion to pool surfaces and equipment, and more eco-friendly backwash water, while still maintaining high levels of chlorine efficiency. All models are self-cleaning and are virtually maintenance free.
