Extending the SPI bus for long-distance communication

An array of 100 x 200 micron optical isolators uses sound to produce one-way light propagation. Credit: Benjamin Sohn Illinois researchers have demonstrated that sound waves can be used to produce ...

Researchers use sound waves to advance optical communication

In radio communication systems, information is carried across space using radio waves. At the sending end, the information to be sent, in the form of a time-varying electrical signal, is applied to a radio transmitter. The information signal can be an audio signal representing sound from a microphone, a video signal representing moving images from a video camera, or a digital signal ...

Radio wave - Wikipedia

An electromagnetic field (also EMF or EM field) is a physical field produced by electrically charged objects. It affects the behavior of charged objects in the vicinity of the field. The electromagnetic field extends indefinitely throughout space and describes the electromagnetic interaction. It is one of the four fundamental forces of nature (the others are gravitation, weak interaction and ...

Electromagnetic field - Wikipedia

Abstractâ€”With increasing interest in millimeter-wave wireless communications, investigations on interactions between the human body and millimeter-wave devices are becoming important. This paper gives examples of todayâ€™s regulatory requirements, and provides an example for a 60 GHz

The spread of radiofrequency electromagnetic fields (RF-EMF) is rising and health effects are still under investigation. RF-EMF promote oxidative stress, a condition involved in cancer onset, in several acute and chronic diseases and in vascular homeostasis.

Towards 5G communication systems: Are there health

Numerous epidemiologic studies and comprehensive reviews of the scientific literature have evaluated possible associations between exposure to non-ionizing EMFs and risk of cancer in children (12â€“14). (Magnetic fields are the component of non-ionizing EMFs that are usually studied in relation to their possible health effects.)

Electromagnetic Fields and Cancer - National Cancer Institute

Evaluating Compliance With FCC Guidelines for Human Exposure to Radio frequency Electromagnetic Fields; This revised OET Bulletin 65 has been prepared to provide assistance in determining whether proposed or existing transmitting facilities, operations or devices comply with limits for human exposure to radio frequency (RF) fields adopted by the Federal Communications Commission (FCC) The ...
