Globalization or globalisation is the process of interaction and integration among people, companies, and governments worldwide. Globalization has grown due to advances in transportation and communication technology. With increased global interactions comes the growth of international trade, ideas, and culture. Globalization is primarily an economic process of interaction and integration that's ...

Importance of the Study on Climate Change and Carbon Budget of China. Reducing CO<sub>2</sub> emissions to mitigate regional and global climate change is one of the most challenging issues facing humanity (.). At present, China has the largest annual CO<sub>2</sub> emissions in the world (Upper graph in Fig. 1), placing it in the spotlight of efforts to manage global C emissions and design climate-change policy.
