

### **handbook of laser welding pdf**

Welding is a fabrication or sculptural process that joins materials, usually metals or thermoplastics, by using high heat to melt the parts together and allowing them to cool causing fusion. Welding is distinct from lower temperature metal-joining techniques such as brazing and soldering, which do not melt the base metal.. In addition to melting the base metal, a filler material is typically ...

La découpe laser est un procédé de fabrication qui consiste à découper la matière grâce à une grande quantité d'énergie générée par un laser et concentrée sur une très faible surface. Cette technologie est majoritairement destinée aux chaînes de production industrielles, mais peut également convenir aux boutiques, aux établissements professionnels et aux tiers-lieux de ...
