The purpose of this kind of assessment is usually **SUMMATIVE** and is mostly done at the end of a task, unit of work etc. It is designed to provide evidence of achievement to parents, other educators, the students themselves and sometimes to outside groups (e.g., employers, other educational institutions).

## **Assessment of, for and as Learning - Curriculum**

**Summative assessment:** Summative assessment is a measure of learning at a particular point in time.

**Formative assessment:** Formative assessment takes place before or during the instruction with the explicit purpose of eliciting evidence that can be used by students and teachers to improve the current learning.

## **Formative Assessment – Supporting Students’ Learning**

When the results of tests and examinations are used to pass judgments on teachers and schools, they also affect the ways in which pupils are taught. Given their importance, it is essential that results of summative assessment should reflect and influence school learning in the best possible way.

## **The role of teachers in the assessment of learning**

Assessment in Support of Instruction and Learning is the summary of a National Research Council workshop convened to examine the gap between external and classroom assessment. This report discusses issues associated with designing an assessment system that meets the demands of public accountability and, at the same time, improves the quality of the education that students receive day by day.

## **Assessment in Support of Instruction and Learning**

support and professional learning opportunities required to meet those needs. We must develop ways to transform teacher evaluation systems to ensure that all students have effective, highly-skilled teachers. The purpose of Teacher assessment and evaluation Current policy discourse about teacher evaluation is
