Summary. FINRA seeks comment on proposed rule amendments that would revise the quantitative suitability obligation under FINRA Rule 2111 (Suitability) to more effectively address instances of excessive trading in customers' accounts. The proposed rule amendments would remove the element of control that currently must be proved to demonstrate a violation, but would not change the obligations ...

The uranium market, like all commodity markets, has a history of volatility, moving not only with the standard forces of supply and demand, but also to whims of geopolitics. It has also evolved particularities of its own in response to the unique nature and use of this material. Historically, uranium has been mined in countries willing to export, including Australia and Canada.
