The term break/fix refers to the fee-for-service method of providing information technology (IT) services to businesses. Using this method an IT solution provider performs services as needed and bills the customer only for the work done. The service may include repairs, upgrades or installation of systems, components, peripheral equipment, networking or software.

## **Break/fix - Wikipedia**

A hotfix or Quick Fix Engineering update (QFE update) is a single, cumulative package that includes information (often in the form of one or more files) that is used to address a problem in a software product (i.e., a software bug).
