A product requirements document (PRD) is a document containing all the requirements to a certain product. It is written to allow people to understand what a product should do. A PRD should, however, generally avoid anticipating or defining how the product will do it in order to later allow interface designers and engineers to use their expertise to provide the optimal solution to the requirements.

Product requirements document - Wikipedia

A software requirements specification (SRS) is a description of a software system to be developed. It is modeled after business requirements specification, also known as a stakeholder requirements specification (StRS). [citation needed] The software requirements specification lays out functional and non-functional requirements, and it may include a set of use cases that describe user ...
