

the history of salt pdf

Salt, also referred to as table salt or by its chemical formula NaCl, is an ionic compound made of sodium and chloride ions. All life has evolved to depend on its chemical properties to survive. It has been used by humans for thousands of years, from food preservation to seasoning.

History of salt - Wikipedia

Taxation of salt by the British authorities. The taxation laws introduced by the British East India Company were in vogue during the ninety years of British Raj which followed the demise of the Company. The construction of a fence to prevent smuggling of salt, which was commenced during the Company's rule, was completed during this period.

If you've ever swapped one of your toys with a friend in return for one of their toys, you have bartered. Bartering is trading services or goods with another person when there is no money involved. This type of exchange was relied upon by early civilizations. There are even cultures within modern society who still rely on this type of exchange.
